**29 students and their teacher from Szczecin's Hotel Training School visited the Baltic Barracks on 28 April 2010 to learn about the Multinational Corps Northeast (MNC NE).**

The first part of the briefing for students was delivered by Major Krzysztof Pietraszko from the Visitors and Observers Bureau. The guests learned about the structure, history and main tasks of the Corps. During the second part of the meeting, Major Mirosław Jaworski, who was also representing the Visitors and Observers Bureau, talked about the Corps' missions in Afghanistan. This topic turned out to be very interesting for students and evoked most vivid discussions. Since Major Jaworski spent 6 months in Afghanistan in 2007, he could share his personal impressions of how life in Afghanistan looks.
