On 23 September 2012, the 2nd Mountain Run on K2 was organised in the forest region of Szczecin. This year, the run was held under honorary patronage of the Commander of the Multinational Corps Northeast (MNC NE) Lieutenant General Rainer Korff.

About 300 runners took part in the second edition of Mountain Run on K2 who had to cover the distance of 8611 m which stands for the exact height of K2 Mountain. The runners were divided into categories: open for men, open for women and the uniformed services category. Beyond the fact that the overall honorary patronage over the event was held by the MNC NE Commander, the Corps also funded the Cups in the category of the uniformed services.

Even though most of MNC NE staff are currently performing their tasks at the Anakonda 12 exercise, four representatives of Multinational Corps Northeast took part in the Mountain Run.

Honorary patronage of the MNC NE Commander over the event is yet another example of active involvement of Multinational Corps Northeast in the life of Szczecin.
