A group of students from Szczecin University, members of Euro-Atlantic Academic Section, paid a visit to the Headquarters Multinational Corps Northeast.

On 17th April 2007 a group of students from Szczecin University, members of Euro-Atlantic Academic Section, paid a visit to the Headquarters Multinational Corps Northeast.

The students took part in a briefing on the organization of the Corps, milestones in its history and perspectives of further development. The mission in Afghanistan was also the matter under consideration since the MNC NE personnel are currently being deployed to ISAF X. After the briefing a discussion was held, which was continued during common lunch.

Frequent visits of students to the HQ prove close cooperation between Szczecin University and the Multinational Corps Northeast but even more importantly they show that young people take an interest in military and NATO matters.
