For the fourth time already, Szczecin International School (SIS) held a soccer tournament for pupils and students of the school complex. All young sports enthusiasts met at Baltic Barracks on 16 February 2011.

A number of children of Headquarters Multinational Corps Northeast (HQ MNC NE) personnel attend Szczecin International School which offers education at various levels within an international frame. Common sports events are yet another good opportunity to strengthen ties among pupils and students.

Under the supervision of Mr Cezary Janiszyn, a Physical Education teacher, several teams took part in the tournament. The participants were not divided into teams by age; pupils and students of different age played together instead, making the whole tournament more interesting to watch.

The tournament ended with a small ceremony during which the winners received hard-won cups and medals.
