The Headmaster of the Szczecin International School (SIS) Mrs. Sawka on 1st September 2011 at 8:40 sharp welcomed the pupils and students and introduced the form teachers in the playground outside the school building.

The pencil boxes were packed, lunchboxes filled and the new Schoolbags were placed on the back of small exited children, who just today began a new part of their life as new pupils. “Exciting, but also a little scary and in many cases, completely different than in the Kindergarten” these were the feelings of first class (P1) pupils. New part of their life began.

In a nice sunny weather, after the official ceremony, the P1 parents joined their children and the form teachers for integration while parents of children from older classes were presented the general rules of the School.

Parents of children who learn in SIS are serving in the Headquarters Multinational Corps Northeast in Szczecin.
