On 10 September 2012, the Commander of the Multinational Corps Northeast (MNC NE) Lieutenant General Rainer Korff met Honorary Consuls accredited in Szczecin to discuss most current developments and to maintain close ties.

It has already become a solid tradition to organise an annual meeting of the MNC NE Command Group and Honorary Consuls in Szczecin. Other occasions include, for instance, various events organised by HQ MNC NE.

This year's annual meeting was devoted to among other things the presentation of the Corps' achievements and discussion on the Corps' future in the context of the ongoing NATO reform. In fact, it was the last meeting for the MNC NE Commander General Korff to attend since General Korff's tour of duty ends in December this year. For that reason, there have been initial summaries of cooperation and plans for the future discussed. The Dean of the Honorary Consuls, Mr Zbigniew Ligierko, on behalf of the other Consuls, expressed his content with the cooperation with General Korff for the past years. He also admitted that the Honorary Consuls were also looking forward towards cooperation with Multinational Corps Northeast in the future.
