

In accordance with an agreement between Multinational Corps Northeast (MNC NE) and the Academy of European Integration in Szczecin on closer cooperation, the Corps' representatives took part in the Patron's Day held on 3 March 2012.

The MNC NE Commander Lieutenant General Rainer Korff took the International Relations field of study under his wing to promote multinational cooperation which is of vital importance to the Corps' everyday existence. Consequently, the Corps continues to get engaged in life of the school, the example of which has been the MNC NE participation in the Patron's Day.

Brigadier General Morten Danielsson, the MNC NE Chief of Staff, represented the MNC NE Commander on the Patron's Day and met students and teaching staff of the Academy as well as students of military classes of the High School in Police during a lecture on 'Multidimensional Integration'. Having real life experience of what integration looks like and what aspects it encompasses, General Danielsson delivered a very interesting lecture with many anecdotes, and drew attention of all the participants.

Another lecture was delivered by Polish Brigadier General (ret.) Marek Ojrzanowski. Even though General Ojrzanowski was not related to MNC NE, his presentation complemented the topics discussed on that day in a considerable way.

Under the Corps' patronage

Beyond lectures, all participants of the Patron's Day had an opportunity to learn more about the Corps from information materials specially prepared for this event. Moreover, members of the Public Affairs Office were in place to answer all the questions and dispel all the doubts. *'We do hope that today's meeting will be another opportunity to create a platform of exchanging mutual experiences and knowledge,'*

admitted Lieutenant Colonel Wojciech Wiśniewski, Chief Public Affairs.
