On the initiative of Mrs Sabine Korff, the Multinational Corps Northeast (MNC NE) Commander's wife, a family event was organised on 22 September 2012 for families of MNC NE service members currently performing their tasks during the Anakonda 12 exercise in Wałcz.

The event closely corresponded to the idea of Family Care Centre which is activated for periods of MNC NE deployments to missions abroad. This time, the German National Support Element, on the initiative of Mrs Sabine Korff, organised a family gathering in order to provide entertainment for families during one of the biggest training undertaking of the Corps this year, Anakonda 12 exercise. There was a barbeque for the hungry ones and lots of games and other entertainment opportunities for the active ones. Everybody could find something for themselves and spend a nice afternoon together in the MNC NE family.
