The cooperation between the Academy of European Integration (WSIE) in Szczecin and Multinational Corps Northeast (MNC NE) has been prolonged for another two years. On 6 February 2013, the cooperation agreement was signed.

On behalf of the MNC NE Commander, the document was signed by the MNC NE Deputy Commander Brigadier General Morten Danielsson, whereas the Academy of European Integration was represented by its Chancellor, Professor Edward Radecki. Multinational Corps Northeast will keep the honorary patronage of the subject of International Relations at the Academy, and the exchange of knowledge and observations will be continued.

After the signing ceremony, the yearly honorary council meeting was conducted. Honorary patrons of various subjects at the Academy, representing among others the uniformed services in Szczecin, for two hours discussed their visions and proposals for improvements in the educational system. Also the international aspect was taken into consideration. General Danielsson indicated language skills and being a team player to be crucial for the work at the Headquarters, which shall also be applicable for a civilian environment. Other patrons agreed with the importance of those skills.

The cooperation will carry on
