Thursday, 26 April 2007 09:00

The guests took part in a briefing on the history, organization, and perspectives of future development of Szczecin-based Corps.

On 26th April 2007 a group of reservists from Neubrandenburg, Germany, paid a visit to the Headquarters Multinational Corps Northeast. The guests took part in a briefing on the history, organization, and perspectives of future development of Szczecin-based Corps and listened with great interest to the challenges that the Corps is currently facing related to the mission in Afghanistan.

The guests had also an opportunity to exchange their own views and ideas during a discussion, which took place after the briefing. And as it was emphasized by one of the participants – a reserve commodore Manfred Soltwedel – the visit at the HQ turned out to be very successful and enlightening.
