Chief Public Information gave a briefing on the topic 'Heading for Kabul: the past and the present time of Szczecin-based Corps' at Szczecin University.

On 24th April 2007, on the invitation of Euro-Atlantic Academic Section, Cmdr Artur Bilski gave a briefing on the topic 'Heading for Kabul: the past and the present time of Szczecin-based Corps'.

A large group of students filled the lecture room at Szczecin University and listened with great interest to the history and organization of Headquarters Multinational Corps Northeast as well as the current mission in Afghanistan in which also MNC NE soldiers take part. After the briefing a hot discussion took place, in which questions concerning the Corps, NATO and the mission in Afghanistan were raised. The exchange of views lasted longer than one hour proving that the students' interest in the military matters is considerably high.
