

**Curiosity brought a group of both civilian and military personnel of the Danish Army Home Guard District "Storstrømmen" to the Headquarters Multinational Corps Northeast on 5th March 2008.**

Sixteen military and civilian personnel of the Danish Army Home Guard District "Storstrømmen" decided to visit the Headquarters Multinational Corps Northeast to broaden their minds and to learn something new. Commander of the District LtCol L. Fog explained that this trip was a good opportunity to find out how our Headquarters works. Indeed, the guests listened about the history, structure as well as the mission, tasks and main challenges of the Corps. LtCol L. Fog admitted that functioning of our Corps confirms that there is no need to be big in order to be professional.

The Corps was not the only aim of the visit; the guests also used the chance to see the city of Szczecin, together with places like "Wały Chrobrego" but also old bunkers.
