**The applause resounded through the lecture room when LtCol Detlef Schachel, Chief of the Visitors and Observers Bureau, finished his presentation on Multinational Corps Northeast (MNC NE).**

26 people from Germany, mostly teachers and headmasters, visited Baltic Barracks on 3 March 2009 to get acquainted with the idea of the Corps as well as its tasks, structure, mission in Afghanistan and integration within the home garrison – the city of Szczecin. As a matter of fact, the whole trip was organised by the Armed Forces Office and was part of the seminar on security policy. Apart from visiting the Corps, the itinerary encompassed a series of briefings on among other things challenges and future of the German Armed Forces and security policy.
