Eight topics

Multinational Corps Northeast is a unique military formation with a wide range of activities in different spheres. For that reason, the HQ MNC NE Public Affairs Office prepared a special exhibition the intention of which is to present the functioning of the Corps in eight areas, e.g. training & exercises, mission in Afghanistan, history, activity, tradition and others. The display is addressed to anybody who would like to learn more about Multinational Corps Northeast and its versatility/distinctive character. It is complemented with a guide that develops all eight areas of the Corps' activity, allowing for a more in-depth analysis.

The exhibition is displayed at the Presidential Gallery in the City Hall in Szczecin free of charge. All viewers are invited to visit the gallery until the end of September 2009.

By this successfully realized project, the City and the Corps again proved excellent partnership. As a matter of fact, this exhibition is an element of a joint promotion campaign for the upcoming celebrations of the Corps' 10th Anniversary.
