Selected personnel of the Headquarters Multinational Corps Northeast (HQ MNC NE) took part in the pre-deployment training Arrcade Spear 1 & 2 held in Great Britain from 4 to 15 October 2010.

HQ MNC NE Subject Mater Experts (SMEs) from different branches, including Engineers Force Protection, Air Operation Coordination Centre (AOCC), Training and Exercise Branch, Public Affairs (PA) and Logistics, supported and mentored the preparation process of the Allied Rapid Reaction Corps (ARRC) personnel for the upcoming Joint Warfare Centre (JWC) led Mission Rehearsal Exercise (MRE) in Stavanger, Norway, and, consequently, the mission in Afghanistan.

Arrcade Spear exercise was conducted in two phases. Arrcade Spear 1 took place in Innsworth Barracks, Gloucester, from 4 to 8 October, and it was Functional Area Training (FAT) during which HQ MNC NE members, among other SMEs led by Senior Mentor General (Ret'd) David D. McKiernan, the former International Security Assistance Force (ISAF) Commander, shared their own experience from the last deployment to ISAF Joint Command (IJC) in 2010. The aim of this part of exercise was to educate the ARRC staff on procedures and instructions perimeter to their future posts in Afghanistan.
