With the Commander of Multinational Corps Northeast (MNC NE) Lieutenant General Rainer Korff in lead, a selected delegation from MNC NE visited the 2nd Polish Corps in Kraków from 4 May to 6 May 2011.

The aim of the visit was to discuss and agree on future cooperation, and establish those personal contacts between the various sections that are necessary in order to ensure a smoother cooperation and better common understanding.

The visit was very fruitful and many issues were discussed, among other things the participation in training and exercises for 2011 and 2012, specifically the MNC NE participation in the big Polish exercise “Dragon” this year as well as the exchange of knowledge and common understanding of military matters.

With the kind support of the Polish Air Force, the delegation was able to fly forth and back exactly on time. Such support, reliability and accuracy were flawless. During the visit, the 2nd Polish Corps proved to be excellent hosts and, beyond working meetings, they also gave the delegation from Szczecin a chance to experience some of the magnificence of Kraków.

MNC NE is looking forward to hosting representatives of the 2nd Polish Corps in Szczecin later in the year where we will further strengthen the newly established bonds.
