

Deputy Commander of the Multinational Corps Northeast (MNC NE) Major General Ryszard Sorokosz participated in the Distinguished Visitors' Day during the Common Tenacity 2011 exercise held in Wildflecken, Germany, on 12 May 2011.

All honourable guests of the Distinguished Visitors' Day in Wildflecken were warmly welcomed by the Commander Eurocorps Lieutenant General Hans-Lothar Domröse and the Deputy Commander of the Rapid Reaction Corps France Major General Philippe Martin. After the briefings presenting both Corps and an introduction to the Common Tenacity 2011 exercise, all participants visited the exercise area.

The Common Tenacity 2011 exercise, conducted from 5 to 19 May 2011, focuses on the exchange of experiences from the mission in Afghanistan at the army corps level. The French Rapid Reaction Corps from Lille is sharing its experiences from their mission in Afghanistan in 2010 with the Eurocorps and NATO Rapid Deployable Corps – Spain, which are just in their preparation process for the upcoming mission. Receiving first-hand information is therefore a valuable element of the training.

For Multinational Corps Northeast, all exercises referring to the mission in Afghanistan provide an excellent opportunity to share the Corps' experiences from the mission and to follow current developments in the operation itself as well as within the preparation processes of sister corps,

DCOM at Common Tenacity 2011
