On 8 June 2011, the Public Affairs Office personnel of the Headquarters Multinational Corps Northeast (HQ MNC NE) presented the Corps to the students of the Szczecin University Faculty of Humanities.

It has been already a long tradition and the MNC NE's policy to present the Corps to all visitors coming to the Baltic Barracks but also to go "outside the fence" and offer the presentation about the Szczecin Corps to universities, schools, other military units, associations, etc.

On the request of the Director of the Section of Research on Conflict and Peace at the Szczecin University, Professor Wiesław Wróblewski, the Public Affairs Office personnel delivered a briefing presenting the Corps' foundation, history, tasks, achievements and current challenges.

The presentation given by Lieutenant Colonel Wojciech Wisniewski and Major Marcin Walczak was very well received by the students who have asked several questions, in most cases focused on the conditions to be fulfilled to join the Headquarters family and the execution of the Vision 2015. As Dorota Jedynak, a PhD student at the History and International Relations Institute emphasised *"It is of great importance for students, young researchers, to get the practical knowledge about the ways the Headquarters Multinational Corps Northeast operates because this kind of information is often not available for civilians. I was really impressed with a very professional delivery of the briefing, multiple means of the presentation and the use of both Polish and English language."*
