From 28 June to 14 July 2011, a six-person team from Headquarters Multinational Corps Northeast (HQ MNC NE) participated in the Regional Command North Training Event organized by the Joint Force Training Centre in Bydgoszcz.

The exercise objective was to ensure that the Regional Command Headquarters Staff planned to deploy to Afghanistan soon will get an understanding of mission related doctrines, plans, systems and procedures specific to their individual and collective functions in order to build a capable, confident and cohesive team.

The exercise was divided into four main parts: part I provided an opportunity to listen to lectures about the mission. Part II was focused on individual responsibilities as well as on the IT systems used in Afghanistan. In part III the training audience could practice internal procedures in the respective branches. And, finally, there was the Mission Rehearsal Exercise as the most challenging part of the training which was supposed to mirror the real mission environment with all military and civilian actors.

During the exercise, the HQ MNC NE team with 6 mission experienced personnel played a role of the ISAF Joint Command. In order to create realistic exercise environment, HQ MNC NE staff officers provided orders, reactions, responses and injects to the training audience in accordance with the previously agreed scenario.

MNC NE supports future ISAF deployers

In general, the Mission Rehearsal Exercise was based on 14 events with more than 170 incidents supported by approximately 100-150 injects per day. 400 officers, non-commissioned officers and civilians contributed to the exercise in order to make that event as helpful as possible for the training audience. It also gave the HQ MNC NE representatives the opportunity to establish new contacts and by this get new experience in the respective working areas.
