

Building up a team

Written by AG

Friday, 28 October 2011 14:28

From 25 to 27 October 2011, the Multinational Corps Northeast (MNC NE) team led by Colonel Zenon Szczybyło participated in the Joint Intelligence Seminar held at 9th Reconnaissance Regiment in Lidzbark Warmiński.

The personnel of the 9th Reconnaissance Regiment, Multinational Corps Northeast and 2nd Mechanized Corps took part in the Joint Intelligence Seminar organised on a cyclical basis. The main aim of the session was to build up a team, developing professional and friendly relations among the ISAR (Intelligence, Surveillance, Target Acquisition, and Reconnaissance) personnel. Common basis for fruitful cooperation will prove to be useful especially during the upcoming exercises, among other things the MNC NE Crystal Eagle 2012 and Polish Anakonda 2012 exercise, in which the ISTAR personnel will train together.

The hosts of the Seminar – the members of the 9th Reconnaissance Regiment – also used the opportunity to organise a sightseeing tour for the Seminar participants.

On the last day of the Seminar, Danish members of MNC NE supported the ongoing English course at the 9th Reconnaissance Regiment and presented some details about the Danish Armed Forces.
