

The meeting of the Polish Land Forces Dean of the Officers' Corps Colonel Czesław Wieliczko, the Polish Land Forces Legal Adviser Colonel (retired) Ryszard Wilma and Polish officers of the Headquarters Multinational Corps Northeast (HQ MNC NE) was organized at Baltic Barracks on 6 December 2011.

Despite the fact that all Polish officers serving at the HQ MNC NE are following NATO regulations and procedures, they are also obliged to stay familiar with the national ones. What is even more important, the soldiers are keenly interested in any upcoming changes, proposals and future solutions which might have an influence on their professional careers.

For that reason, a Polish Officers Corps' Representative at the HQ, Colonel Adam Kaczorowski, has organized a meeting with two representatives from the Polish Land Forces: the Dean of the Officers' Corps Colonel Czesław Wieliczko and the Legal Adviser Colonel (retired) Ryszard Wilma. The event has also been an excellent occasion to answer those questions which could not be answered by the local authorities.

Changes in social benefits and living conditions, legal interpretations of various cases, updates of the laws and many, many other topics have been discussed and clarified.

Staying nationally updated

As the first step usually starts a walk, also in this case the meeting marked the beginning of closer cooperation and support provided to the Polish personnel of the Headquarters by the Land Forces' Subject Matters Experts.
