---

**On 9-10 May 2012, Headquarters Multinational Corps Northeast's (HQ MNC NE) representative took part in a workshop at Drawsko Pomorskie training area and a site survey in Walcz, constituting another step on the way to Anaconda 12 exercise scheduled for September this year.**

The vast majority of HQ MNC NE personnel have been deployed to Camp Nymindagab, Denmark, for the last two weeks conducting the most important training endeavour of the Corps this year – the Crystal Eagle 12 exercise. Despite these efforts, other Corps personnel, especially those who stayed back in the home garrison, work on several different topic in parallel making sure the upcoming engagements and commitments are dealt with in a proper and continuous way.

One of these is participation in the preparation process of the Polish Armed Forces' exercise Anaconda 12, scheduled for September 2012, in which a considerable part of the Headquarters personnel will take part.

Major Jacek Ciuleba from the Corps G-6 Staff Division represented the Headquarters making sure that all updates and decisions regarding the conduct of the exercise would be passed to the right personnel back in Szczecin.

Several working groups were dealing with issues such as communication, IT concept, scenario, organization of exercise etc. The second day of the event was focused on more real life related matters like messing, accommodation, transportation, medical support etc.

Anaconda 12 is the major Polish exercise conducted by the Operational Command of the Polish Armed Forces focused on Article 5 operations. This will be the first time in the history of Anaconda exercise series for the Corps level Headquarters from the NATO Force Structure to participate in the exercise as a Training Audience.
