---

**From 7 to 19 October 2012, representatives of Headquarters Multinational Corps Northeast (HQ MNC NE) took part in the Citadel Guibert 12 conducted by Headquarters Rapid Reaction Corps-France (HQ RCC-FR). □**

The idea of mutual support belongs to the priorities of HQ MNC NE. Following that concept, HQ supports other commands and headquarters during their training and exercises, and invites others for the Corps' activities in order to share experiences and learn from each other. The participation of the Corps personnel in exercise Citadel Guibert 12 in France was another perfect example of putting this concept into practice. In fact, among 2,700 exercise participants from 24 countries were representatives from over 29 multinational commands and headquarters, including 5 members of HQ MNC NE. Once again the HQ MNC NE members supported the exercise, side by side with soldiers from 1 German/Netherlands Corps, Eurocorps, French Air Force and Rapid Reaction Corps-France, as part of the Higher Control (HICON). And again, MNC NE expertise provided by MNC NE Subject Matter Experts was highly appreciated.
