**For the third time already, the Commander of the Multinational Corps Northeast Lieutenant General Rainer Korff held a drawing competition for most beautiful Christmas cards among pupils and students of Szczecin International School (SIS). Best young artists received their awards on 17 December 2012.**

It has already been tradition to organise a competition for Christmas cards. The best ones are afterwards sent out to more than 200 places in the world with MNC NE Christmas wishes. This year, the children divided into two age categories – younger and older ones – were asked to refer to a Christmas tree as the main motto for their Christmas cards. As usual, it has been a difficult task to choose the best drawings. The MNC NE Commander awarded three children in each age category. Among pupils, the best Christmas card was drawn by Paula Rewers, the second place was taken by Aleksandra Soboń, and the third by her brother, Krzysztof Soboń. In teenagers' category, the best card was created by Melanie Wiese. The second and the third places were taken by Sonia Stanuch and Karol Wiatrowski respectively.

General Korff joined the traditional Christmas event organised by SIS in order to congratulate the best young artists and to hand over small gifts to them.
